Company Description

Cubus Solutions, headquartered in Livermore, CA, is a software company that provides expert cost-saving and green business applications to Credit Unions helping them better serve and retain their members through innovative service offerings, more efficient and cost-effective operations, and creative membership programs. Cubus Solutions supports the Go-Green Initiative with its paper and gas saving programs, CUStatements and CUDeposits. The company has a suite of software solutions specifically for Credit Unions which additionally include Member Notifications, Points Management and Loyalty Checking solutions. Cubus Solutions, which is privately held, was founded in 2006 by a group of long time industry professionals who previously worked together at a well-known Credit Union core system provider. For more information visit www.cubussolutions.com.
